Q&A

*How the cloud will
save you money
(and benefits)*

Challenges businesses face today...

Security issues

It is very likely to encounter data theft and cyber threats when it is stored in local servers.

Inability to access data remotely

When data is stored in a physical computer, it cannot be accessed remotely.

Real-time collaboration

Documents cannot be kept handy and accessed anytime and anywhere.

Extra costs

Extra costs are involved in purchasing and maintaining the on-premise hardware.

Can you afford not to go to the cloud?

PC or Server w/QBD crashes or gets stolen

(Hopefully you have your company file backed up)
